# Portable / Bluetooth Payment Terminal

## iWL 220B

The new iWL 220 Bluetooth terminal provided by 123Send offers the latest in contactless technology and is one of the lightest and smallest on the market. Engineered to last, the compact design eliminates technical complexity to assure faultless operation in even the most demanding of retail environments.

Connecting through its docking base to either a Fixed PSTN or Broadband IP Line, this portable terminal using the latest Bluetooth technology combines flexibility with fast yet cost effective transaction processing.

Due to its flexibility this portable terminal is ideal for bars, restaurants, cafes, hotels and much more.
